

Lee Ann Brady, DMD

"Today's Top Clinical Tips" and "Occlusion in Everyday Dentistry"

Friday, April 5, 2019

Fairfax Marriott at Fair Oaks 11787 Lee Jackson Memorial Hwy, Fairfax, VA 22033

Registration: 8:00 a.m. - 8:30 a.m. Program: 8:30 a.m. - 4:00 p.m.

6 CE Credit Lecture Hours - Business Attire

Synopsis:

Dentistry is changing at a rapid pace. Being successful and efficient is about staying on top of the newest trends and clinical tips. In this program, Dr. Brady will present the top clinical tips and techniques she is teaching. Some are old tried and true approaches that remain successful, while others introduce brand new materials and approaches. Tips will span the areas of prevention, posterior composites and indirect all ceramics.

Have you ever wondered why, after prepping a second molar for a crown, the occlusal of the prep is in contact with the opposing tooth? Every time we alter the chewing surface of the tooth we impact the entire stomatognathic system. Often the patient adapts to these changes. But when they don't it can jeopardize the restoration, the other teeth, and can cost us the patient's trust, not to mention our time. In this session we will explore the challenges of occlusion we face every day in a restorative practice and look at how we can utilize this information to make our dentistry more predictable and help our patients stay healthy and comfortable.

Course Objectives:

- Caries and Perio Prevention
• Posterior Composite Efficiency and Effectiveness
• Successful Bonding & Cementation
• Improved Posterior All Ceramic Restorations
• Centric relation
• Signs of occlusal disease
• Anterior guidance
• Managing occlusion in a restorative practice
