Northern Virginia Dental Society is an ADA CERP-recognized provider approved by Virginia Dental Association. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. NVDS designates the above activities for the number of continuing education credits listed above. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp. Approved PACE program provider, FAGD/MAGD credit 4/1/23 until 3/31/2027 ID#212489. Approval does not imply acceptance by any regulatory authority or AGD endorsement. Diana Tadros, DDS has no financial relations relevant to this course to disclose. While NVDS strives to present highly qualified speakers, it does not endorse any speaker content, products, or techniques, and makes no guarantees about the information shared in CE programs. Please contact Erin Matlock with questions at (703)642-5298 or ematlock@nvds.org.

Course Information:

Synopsis:

This 6-hour interactive course walks participants through the full digital workflow—from designing cases with precision, to bringing them to life with 3D printing, and presenting them in a way that truly connects with patients. We'll cover how to make the most of digital tools in everyday practice, simplify your workflow, and boost case acceptance through more engaging and confident treatment presentations. Whether you're just starting with digital dentistry or looking to sharpen your skills, this session is packed with practical tips, real cases, and ideas you can use right away.

Course Objectives:

- Understand the key principles of digital dental design and how they translate into clinical practice.
- Navigate in-office 3D printing—from choosing the right printer to optimizing print workflows for various case types.
- Present treatment plans more clearly and confidently using digital visuals and tools.
- Build a seamless digital workflow that connects diagnostics, design, fabrication, and communication.
- Identify common challenges in digital adoption and learn how to overcome them in a general or specialty practice

About Our Presenter:

Dr. Tadros maintains a boutique fee for service private practice in Fort Lauderdale, Florida. She is an accredited member of the AACD (American Academy of Cosmetic Dentistry) as well as an Accreditation examiner and Board Member of the American Board of Cosmetic Dentistry. She is a Kois Center Mentor and Kois Center Guest Instructor where she teaches courses on Digital Designing in house. Outside of practice, She is the founder of Exocad Elite, a training continuum, where she teaches a series of workshops to other dentists on digital Designing, 3D printing and workflows. This past year she was selected as one of the Top 50 Global Digital Women of the Year and Digital Educator of the Year.
